

INSTRUCTIONS for creating an 8 ½"x 5 ½" Mini New England Airport Directory.

1. Materials needed besides a computer, printer and paper– Glue backed plastic encapsulation sheets and Book Rings available at most stationary stores or office mega-stores like Staples.
2. Print the following four pages double sided “Book” format (Flip on the side of the page vs. the top.) on standard 8 ½"x 11" paper. DO NOT PRINT THIS PAGE – START AT PAGE 2.
3. Cut the pages in half yielding 4 pages.
4. Encapsulate each page in plastic.
5. Punch two holes in the top of pages 1, 3, 5, & 7.
6. Line the pages up and place “Book Rings” thru the holes.
7. You now have a convenient, cockpit friendly airport directory.
8. This directory is not a substitute for an FAA approved airport directory. QC Avionix, LLC provides it as a convenience to pilots without any guarantee as to the accuracy of the data contained herein.
9. Please let us know of changes or errors by email at info@qcavionix.com and we will do our best to correct them in our next version.
